PROFESSIONAL SUMMARY

Aspiring **MERN Stack Developer** with expertise in **System Design** and **IoT applications**. Proven ability to build scalable software and mentor talent, **demonstrated by leading 3000+ global live coding sessions with a 4.7/5 rating**. Passionate about leveraging technology to solve complex problems and drive innovation.

EDUCATION

VIT-AP University

B.Tech in Electronics & Communication Engineering

2022 – 2026

CGPA: 8.17

TECHNICAL SKILLS

Programming Languages	Java, JavaScript, Python,
Frontend	React.js, HTML5, CSS3, Tailwind CSS, Material UI
Backend	Node.js, Express.js, RESTful APIs
Databases	MongoDB, SQL, Firebase Firestore
Cloud & DevOps	Firebase, Vercel, Git & GitHub, Postman, AWS, CI/CD, Docker (Basic)
Data Visualization	Power BI, Excel
Coursework	Data Structures & Algorithms, Object-Oriented Programming, Operating Systems, DBMS, COA, Software Engineering, System Design Basics

TECHNICAL PROJECTS

Codingal Project Review Automation

[GitHub](#)

- **Automated** the project review workflow, **cutting evaluation time by 95%** (from 3 minutes to 6–7 seconds per project).
- **Engineered** a modular OOP architecture with real-time WebSocket updates, enabling seamless browser-based evaluations.
- **Reduced recurring bugs by 25–30%** through structured modularization, simplifying long-term maintenance.

LifeDrop – Full-Stack Blood Donation Platform

[GitHub](#) | [Live](#)

- **Developed** a real-time platform connecting donors, recipients, and hospitals with **Role-Based Access Control (RBAC) dashboards** and instant WhatsApp alerts.
- **Implemented** real-time synchronization with Firestore listeners and automated alerts using Firebase Cloud Functions and Twilio.
- **Secured** sessions with Firebase Auth and **built a responsive UI** using Tailwind CSS for cross-device accessibility.

Advanced Electronic Voting Machine (AEVM)

- **Designed** a next-gen e-voting system with **biometric authentication**, ensuring fraud-proof and secure elections.
- **Enabled** instant results with **real-time cloud sync**, reducing vote counting time by up to **99%**.
- **Integrated** IoT hardware and built **live React + Tailwind dashboards** for transparent, interactive visualization.

WORK EXPERIENCE

Senior Coding Instructor — Codingal Inc.

Dec 2023 – Present

- Mentored **100+ global students** through **3,000+ live online sessions** in Java, Python, AI, and Web Development, consistently maintaining a **4.7/5 average rating**.
- **Achieved an 80% student renewal rate** by delivering engaging, personalized instruction with **95% punctuality**.

PROFESSIONAL CERTIFICATES

Oracle Cloud Infrastructure Foundations Associate (Oracle, July 2025)

System Design Masterclass (Udemy, June 2025)

Full Stack Developer Bootcamp – Master Frontend to Backend (GeeksforGeeks, March 2025)

ACHIEVEMENTS

- Vice President, BONGOJO: **Led a team of 25 to organize 5+ events, boosting club membership by 25%.**
- Awarded IETE Membership and Swami Vivekananda Merit-cum-Means Scholarship (2019).
- University Finalist at Smart India Hackathon and represented VIT-AP at Mark24 Hackathon.
